VULCAN ADVOCATE, June 19, 1918

PRICE \$1.50 PER YEAR

LOCAL REGISTRATION AT ODDFELLOWS HALL

Saturday Is The Day; List Of Other District Points For Registration

Registration Day, Saturday, 22nd June, has been decided upon as a necessary preliminary to the exercise of Canada's maximum power in the great conflict in which the world is engaged. It is necessary preliminary for the reason that a country cannot exert its full strength in any enterprise unless it determines beforehand the measure of that strength. Registration of Canada to see that, as far as is humanly possible, every ounce of energy available is made to bear upon the issue in Europe, and that the minimum is lost in useless effort. With that accomplished Canada will have reached the peak of her endeavor and, supported by the war-wavering determination of her people, will carry on until the foe is finally vanquished.

The Cause requires of every country as it requires of every individual the utmost of service. Canada cannot be sure she is serving to the utmost until she clearly understands what her maximum capabilities are. The registration of every person resident in the Dominion, male and female, of 16 years and over, will provide the information from which can be deduced the extent of Canada's possible war effort.

The place of registration for Vulcan is the Oddfellows hall. The hours during which the hall will be opened are from seven o'clock in the morning to ten o'clock at night. Mr. A. J. Flood is the one in charge of the local registration and he will be assisted by Miss Travin. Other helpers who will volunteer to help are asked to do so. On that day every one in town must register. It is not necessary that a person should register in their town of location. Failure to register carries a maximum fine of \$100 and one month's imprisonment, also an added penalty of \$10 for each day the person remains unregistered after June 22nd. Persons remaining unregistered cannot lawfully be employed and cannot draw wages or work done after that date. Employers who kept unregistered persons in their employ will be liable for fines equal in amount to those recoverable from the unregistered employees. All persons remaining unregistered, and all persons having dealings with unregistered persons, knowing them to be such, incur heavy penalties under the law. Although it has been stated that the registration comprises people between the ages of 16 and 60, people of every age over 60 must register. There is no age limit. Cards may be procured at any time and filled in, but they must not be signed or dated until Saturday at the place of registration and in the presence of the registrar.

Other local points at which registration booths will be open are: Boyne school, Harvey school, Ensign school, McIntyre school, Red Cross school, Mayview school, Eastway school, Willard school, Queenstown school, Shatto school, Sunny Glen school, Prospect Slope school, Reid Hill school, Thigh Hill school, Richmond school and Kirkcaldy store. Registration cards may be obtained at any time from any of the registrars between now and Saturday. Mr. A. J. Flood will supply anyone being in Vulcan.

Miss Eva Yeo of Calgary, was a visitor in town last week.

The ladies baseball teams are coming along nicely. Joe reporting splen did work-outs at the practice games. They will play an exhibition game on July 1st. This alone should be worth the money.

Shortly after the noon hour on Friday last the fire bell sounded, calling the brigade to an outbreak on Railroad Avenue. A small barn was on fire, and the contents, hay and four or five setting hens were destroyed. A high wind was blowing at the time but fortunately it was in the wrong direction to blow the flames on to any other building. The fire was so far advanced when the brigade arrived on the scene that to save the building was impossible.

BLACKIE LADY MEETS WITH AUTO ACCIDENT

Mrs. Smith, of Blackie, met with a serious auto accident last Thursday. She came to Vulcan to take home the car which had been undergoing repairs and was on the way to Blackie when the accident occurred. The car was proceeding up the steep grade by Mr. Gano's farm when the brakes refused to work. The car backed down the grade upset and threw Mrs. Smith out into the road. Mr. and Mrs. Andrews, who live a short distance from where the accident occurred, went to Mrs. Smith's assistance and found her lying in the road. Mrs. Smith was brought in to Miss Rinehart's hospital where it was found that she had two ribs broken and was badly bruised. She is making good progress toward recovery.

R. C. SERVICE

Mass will be celebrated at the I. O. O. F. hall on Sunday morning, June 23rd, at eleven o'clock, the Rev. Fr. W. C. Smith, of High River, officiating.

LOCAL CROP CONDITIONS IN THIS DISTRICT

Reports Also Show That Over Western Provinces Conditions Are Similar

The past week has been hot and dry with occasional high winds. Rain in High River and the country to the north of this district on Monday almost led us to the belief that there would be rain here also, but although the sky was very cloudy during the whole of the day, no rain fell. The opinion among the farmers as a result of the continued dryness is that although there is no immediate need of rain, the next few days will decide the matter. Given rain within that time fears could be abolished, but if the weather remains dry there is going to be a light, yield throughout the greater part of the district.

A report on crop conditions in Manitoba, Saskatchewan and Alberta, given by J. D. McGregor, Manitoba director for the Canada Food Board, who has just concluded an extended tour of inspection in the west is as follows: "Western Canada needs rains from Winnipeg to the mountains and weather conditions for the next two weeks will largely determine what the 1918 crop will be."

"While ideal weather conditions for the next two weeks," said Mr. McGregor, "may turn this year's harvest into a bumper one, the risk to crops is such as to make it necessary at the present time to conserve as far as possible every bushel of wheat in the country."

"Conditions are better in Manitoba than they are in Alberta and Saskatchewan as far as moisture is concerned. On the main line of the Canadian Pacific railway conditions are bad from a little way west of Moose Jaw to Bassano, Alta. In the Lethbridge district they have had rain within the last week which the main line did not get. Edmonton district got heavy rain Thursday and Friday last, but from 50 miles east of Edmonton to 50 miles west of Saskatoon rain is badly needed in every district."

"Conditions improve as you come east. The crop is light and what is needed is rain and warm weather. The wind and frost have done great damage, particularly in Saskatchewan and on light land in Manitoba. In some districts wheat blown out has been reseeded to barley. The wind and frost have reduced the wheat acreage considerably."

A strawberry lawn social under the auspices of the Ensign Red Cross society will be held at the home of Mr. G. A. McMaster one and a half miles west of McIntyre school on Friday, June 28th. Motor parties seeking pleasure trips should bear this date in mind as every effort is being made to sustain the reputation of the Ensign branch of the Red Cross for giving enjoyable affairs.

Registration Board NOTICE

NOTICE IS HEREBY GIVEN Pursuant to the Order in Council, P. C. 404, dated February 23rd, 1918, establishing the Canada Registration Board and pursuant to Order in Council, P. C. 935, dated April 22nd, 1918, and the Registration Regulations enacted thereby, that the place mentioned or described below has been by me fixed as place of registration for the Village of Vulcan.

The I.O.O.F. Hall, Vulcan Street.

Blank Registration Cards may be obtained at the office of the Secretary-Treasurer of the Village of Vulcan, who will be glad to explain the regulations regarding the filling out of same.

The hours for registration will be from 7 a.m. till 10 p.m. on Saturday June 22nd next, and all registrants are requested to attend as early as possible on that date to file their cards and obtain certificates of registration of same as required.

It is desirable that cards be obtained and filled out before that date in order to facilitate registration, but cards must be dated on 22nd.

A. J. FLOOD

Agent for A. A. McGregor, Chief Registrar.

EMBREE-PEACE

A very pretty wedding was celebrated on Saturday, June 15th at the home of Mr. and Mrs. W. H. Grant, cousins of the bride, when Isabelle Peace of Vulcan, and J. Hemmeon Embree, of Port Hawkesbury, N. S., were united in marriage, the Rev. A. R. Schrag officiating. Owing to the illness of the bride's aunt, Mrs. H. W. Reeves, the wedding was held at the home of Mr. and Mrs. Grant.

At the appointed hour the bridal party took their places under a bower of smilax and carnations. The bride, who was unattended, looked charming in a gown of steel grey taffeta silk and georgette crepe. She carried a bouquet of faint pink roses and fern. After the ceremony and the signing of the register, the guests sat down to a dainty luncheon, after which the bride left to don her travelling suit of sand grey serge, coat opening over a pretty georgette crepe blouse to match her hat of melon, trimmed with white wings, completing a very pretty travelling costume. The happy couple left on the evening train for Calgary, after which they will take up their residence in Vulcan.

The guests consisted of only the immediate relatives of the contracting parties, with the exception of Miss J. Dewar, A. L. C. M., formerly of Wyoming, Ont., one of the bride's most intimate girl friends. The gifts were many and beautiful. Among them was a cut glass water set and pickle dish, given by the members of the choir and Girls Club, showing the high esteem in which the bride was held. The presentation of the latter was made the evening previously at the home of Miss Jean Ferguson, when a very pretty pre-nuptial party was given in honor of Miss Peace.

Miss Bessie Thomas and Miss Dora Crosby spent Sunday with friends in Calgary.

The Rev. A. R. Schrag left on Monday on a business trip for the district north of Edmonton.

BIG BALL GAME IS BOOKED FOR SATURDAY

Calgary Columbus Team To Be Here To Show How Game Is Played

Baseball fans have a treat in store for them on Saturday of this week, when the Calgary Columbus baseball team will be here to give the local fellows a chance to show what they can do. The "Cubs" are some players according to all accounts and the promise of the best game of this season is held out for Saturday. Vulcan recently defeated the Calgary Hustlers 3-2, and last Monday at Calgary the Cubs defeated the Hustlers by 10-6. So that looks promising enough. If you want to see good ball be on the diamond at three thirty on Saturday. The locals are in great fettle these days, too.

RED CROSS TO HOLD FESTIVAL OF ALLIES

A festival of the Allies, Cafeteria style, will be held at the Boyne school house on Friday, June 28th, from 6 to 8:30 in the evening. The festival is being given under the auspices of the Little Bow branch of the Canadian Red Cross Society. Following the festival a musical programme will be given by local talent of the district. A cordial invitation is given to all to attend.

The Commercial League has played two or three games during the week, but what the results were we cannot say. The players themselves seem for the most part to be hazy on the matter, scores of great magnitude being the rule rather than the exception.

BIG CELEBRATION IS PLANNED JULY FIRST

Good Programme Of Sports Is Arranged; Wind-Up Dance In Evening

Vulcan has had a celebration on July 1st ever since it was Vulcan, and as the years go by the affair gets more ambitious. This year's celebration is not to be behind any of its predecessors, and those in charge of it, Messrs. A. M. Trail, E. M. Clark and G. M. Whicher, have formed a programme that is better than any before. The proceedings commence at one o'clock prompt, the first events being the sports for the children and the trap-shooting for representatives of gun clubs of Champion, Carmangay, High River and Vulcan. Following these will be the baseball game, Vulcan vs. an all-star team from Calgary. Mr. A. M. Trail has been at some trouble to arrange this game and it is bound to be one of the drawing cards of the day. A ladies baseball game between the Garnets and the Emeralds will also be played. A tug-of-war contest is also being arranged between teams representing the districts of Reid Hill, Buffalo Hills, Loma and Harvey. Horse races are going to be fewer but better than they have ever been before. Instead of spreading a certain amount of money over a number of races the amount is to be used for four races only, thus making each event worth while to the owners. The races will be, relay race, pony race, free-for-all and ladies' race. To wind up the day there will be bucking contests for without these exhibitions any celebration would be incomplete. In the evening a dance will be given at the Oddfellows hall, the music to be supplied by Klebe's seven-piece orchestra. The Carmangay boys band will be on the fair grounds in the afternoon. Such, in brief, is the program for the day. It should be borne in mind that the length of the program makes it essential that everything should be pulled off on time. Therefore the proceedings will start promptly at one o'clock. Be in time.

HIRED MAN'S NARROW ESCAPE FROM DEATH

The hired man of Mr. J. Bradshaw, who owns a farm about 12 miles northwest of Vulcan, had a narrow escape from death last Friday when three horses were lost. It appears that the man was doing some ploughing with three horses, in a field in which there was a disused well of about 40 feet depth. The well had an old wooden fence around it, and although the man knew of it, he took his horses too near to it. One of the horses happened to step over the edge and fall in with the result that the other two horses and the plough were pulled in as well. The man was unable to jump clear to save himself and fell in on top of the horses and plough. Fortunately he was not badly injured receiving only bruises. One of the horses was killed immediately but the other two remained alive for some time. An effort to rescue them was made, but it was ineffectual and they died. The harness and plough was recovered.

NOTHING TO RUMORS OF POLICE SHOOTING

Sergeant N. J. Arnold, of the Dominion Police, Calgary, was in Vulcan at the beginning of the week. He stated to the Advocate that there was nothing at all to the various rumors of provincial policemen being shot by defaulters. A great many stories to that effect had been going the rounds lately, one of the incidents supposed to have been staged at Gleichen and another in the hills west of Calgary, but they depend on imagination entirely.

Although it was rumored also that desertion of the men now being called up to the ranks was extensive, Sgt. Arnold stated that it was comparatively light. Sgt. Arnold stated that a number of rumors about the clashes between the military and the police were traced to sources of German origin.

At the baseball match last Wednesday the taggers for the Red Cross Society collected \$70.60 and members of the Society wish to thank the young ladies who collected this.

BOYS AND GIRLS PIG CLUB HAS GOOD START

Pigs Have Arrived And Been Distributed. Fourteen Juniors are Members

The Vulcan boys and girls pig club is away to a good start, and judging from the number of children and adults who were in attendance at the distribution of the pigs on Saturday last, a lively interest is being taken in the movement.

The club has a membership of fourteen, each of whom on Saturday received two thoroughbred registered sows, eight weeks old. Each boy and girl will shortly receive papers from Ottawa showing the pigs to be registered in their own names. Eighteen Berkshires and ten Duroc Jerseys were distributed.

Mr. M. L. Gordon, manager of the Bank of Commerce who is responsible for the organization, agreed to lend to any children who did not have funds of their own, sufficient to pay for the hogs, and the loans will carry until the end of the year, by which time the pigs should be in such condition that the proceeds of the sale of one will at least be sufficient to pay the original cost of the two. If conditions of the club warrant it the possibilities are that the members will be permitted to keep over both their pigs for breeding purposes next year. In addition to the actual cost of the pigs each member pays in \$1, and the total so paid in forms an insurance fund so that in event of the death of a pig the owner does not have to stand the whole of the loss. The amount of insurance to be paid in any case is adjusted by the insurance committee, composed of the boys and girls.

This year pig raising is the only department the club is taking up, but it is hoped that in the future other work will be included.

The officers of the club are: president, A. McDonald; secretary and manager, M. L. Gordon; insurance committee, Minnie Norton, Irwin Sharratt, Chas. Eamor, Laura Terry. The members are: Chas. Eamor, Earl Adams, Bernard McDonald, James McDonald, Laura Terry, Willie Speer, Dorris Speer, Elva Tuttle, Clyde Clark, Irwin Sharratt, Myrtle Palmer, Gladys Norton, Minnie Norton, Ida Eamor.

SUCCESSFUL AGRICULTURAL DANCE

A very successful dance was given in the I.O.O.F. hall on Friday night of last week by the directors of the Agricultural Society. About two hundred people were present, and a very enjoyable time was provided for them. Klebe's 5-piece orchestra supplied excellent music, and supper was served during the evening. The proceeds from the dance go to the funds of the Agricultural Society.

The Empire Conference of Premiers now in session in London—Left to right: Rt. Hon. W. M. Hughes, Australia; Rt. Hon. David Lloyd George, Great Britain; Rt. Hon. Sir Robert Borden, Canada; Rt. Hon. W. F. Massey, New Zealand; Rt. Hon. Gen. Christian Smuts, South Africa, (representing Premier Botha) and Rt. Hon. W. F. Lloyd, Newfoundland.

THE CASE AGAINST GERMAN MUSIC

The war has caused many a man, otherwise sane, to rush to the support of opinions of which he would be heartily ashamed in his quieter moments. We have had all sorts of tirades against the German language but it was left for a theatrical censor down in Toronto to bring the swing of his mighty intellect against the playing of German music at the Canadian National Exhibition. As if some support was needed for his picaresque judgment he quotes the action of a number of clergymen who have banned the playing of Mendelssohn's wedding march in their churches. Clergymen of this type we suppose will with equal celerity ban the "Eli-Jah," claiming unholy music as their excuse with never a thought to the fact that the composer of it was direct descendant of the same race of people as the One whose gospel they preach. All that there is against him is that he happened to be born in Germany.

Fanaticism of this kind whether from censor or clergyman desires rather more than silent contempt. Music is the greatest of the international arts. The music of the German masters is no more particularly German in its mission and appeal than are the plays of Shakespeare particularly Anglo-Saxon; they are the legacy of genius to the world and must be regarded as such. The war is being fought in order to rid the world of the militarism that would tyrannize the world, not that we may do away with the really good things left to the world. The men who have bequeathed the music were the very antithesis of the leaders of the German nation today. Surely we are sane enough to keep our mental balance and judgment notwithstanding such nonsense as comes down now and again from those sitting in authority.

Montreal city council has decided to place a tax of \$10.00 on all bachelors residing in the city limits. A man has either to fight or pay for his liberty these days.

THE DANGER OF RECKLESS DRIVING.

We have before drawn attention to the reckless manner in which some motorists drive into town and on the assumption that some good may yet be done by reiteration, we are bringing it up again.

It is fully time that something was done to put a stop to it. If things are allowed to go on as at present there will be an accident some day, followed by sincere but vain regrets. Before that happens let us do something. If the council cannot act, surely the Automobile Club can. Notice boards at the entrances to the town, stating speed through the town of not more than 15 miles would do the trick. Let us have it done.

A BETTER UNDERSTANDING BETWEEN EAST AND WEST

"An enormous revenue has to be raised in any case and in no other way can the amount be produced but by the tariff, be raised so easily and airily as by the present method which at the same time give reasonable protection to our great manufacturing industries."

Thus speaks S. K. Parson, president of the Canadian Manufacturers Association on the occasion of the annual convention at Winnipeg last week. In an appeal for a better understanding between the farmers of the west and manufacturers of the east. The above quotation, which is on the whole a very fair interpretation of Mr. Parson's speech, is not calculated to make any great impression on the western farmer who has had more than he wants of the tariff arrangements as fixed by the east. A better understanding between the two sections of Canada is urgently needed if only on account of the many problems relative to the welfare of both, which have to be solved. But the situation must be approached from a broader standpoint than that of declaring that the tariff is the only safe and sane method of raising the revenue of the country. As an example of where the brushing aside of the tariff had helped not only the country but the nation to greater production and wealth one has only to remember the removal of the duty from tractors. That alone provided an instance to prove to the farmer that tariff talk was not all "gospel truth." As a matter of fact he is rather more than tired of this "reasonable protection to our great manufacturing industries" and although he is as strong as anyone for a better understanding between the manufacturing east and the agricultural west, he is not going to enter into any consideration of it to the tune of the tariff music.

The authorities are still urging the buying of coal for winter and wise men may be distinguished as those who follow the advice.

STERNER MEASURES REQUIRED

From meagre reports at the weekend, it appears that the government is going to limit still further the importation of luxuries and do something in the way of fixing the prices hereof. It appears that since the first order in regard to luxuries was brought out certain dealers have taken advantage of it by forcing their prices up as if the goods were affected by the order when as a matter of fact they were not. The idea was perfectly simple, the dealers regarded their stock-in-hand of goods to be affected by the order as having been bought after, instead of before the order came in force. The result was that the general public, gullible as ever had to pay or go without.

This goes to show of the many difficulties the government confronts when once they begin to intervene on channels of trade, which pass beyond its control immediately it has touched it. It is still open to commercial rascality to do very much as it pleases. Experience has taught the government this lesson and now they are considering the fixing of prices. Whether any action of that nature will overcome the abuse remains to be seen. One hopes that it will, but the hopes are diluted with a certain amount of suspicion.

The public know that honesty in business as elsewhere is a matter of individual attainment and while it would like to give all credit possible, former experience has taught it to look for no mercy from some of our commercial manipulators who work on the principle of wringing blood from a stone. To meet such methods as this price fixing is not enough; here should be sterner measures. The profiteer who would rob his countrymen of more than a legitimate price is as much a grafter and impediment to the war as any other thief of the country's wealth. Profiteers, big or little are worse than useless and as bad as enemy aliens who destroy the country's business by anarchy and when found out they should be dealt with in exactly the same manner. War is too serious a business to be allowed to become a medium for soulless money making and we are criminally unjust if we allow it and at the same time allow our soldiers to fight for the safety of these profiteers.

Although some ministers, under the notion that Mendelssohn was a German are forbidding the playing of his wedding march, they are not saying anything about Martin Luther.

Oil discoveries are said to have been made in Egypt. The population is entitled to the sympathy of all Albertans.

The Calgary Medical Health officers say that mattresses are a menace to health. We had not noticed anything wrong with them beyond that they were a hindrance to the early rising.

All iron and steel in the United States has been taken over by the government. As a combine against the mailed fist of Germany this should be good business.

A U. S. aviator delivered mail recently at the rate of 147 miles an hour. This is almost as speedy as spreading news by the time honored custom of telling it as a secret to a woman.

The Red Line car route, Lethbridge, will collect double fares during the days of the stampede, July 22nd to 27th. Doesn't it always seem that the visitors are the ones to be over charged? We wonder if the same rule will apply to other accommodation in the city. It is one way of giving people a welcome that seems to be in favor with most cities on similar occasions.

Although it is stated that bald-headed men rarely have tuberculosis, the betting is that the majority of them are married.

The Canada Food Board urges the people to cut meat rations. It is so long since we cut ours that we have forgotten what it feels like.

Senator Nichols has been pointing out that a bushel of wheat costs 80c to raise and sells at \$2.20, netting the farmer a profit of from 200 to 300 per cent. But he forgot to say how much the farmer had to pay for what he bought, let alone the expense of keeping up the senate.

Civility and courtesy to the mothers of Canada should be extended at all times, particularly when their boys are being drafted. Reports to hand would indicate that an utmost lack of civility prevails in some quarters.

And don't forget that this is registration week. Registration can be made before June 22nd, and such an arrangement will save time.

"No man has the right to strike at this time no matter how great the provocation" says Hon. F. B. Carroll. He might also have said that no man has the right to employ another or wages inconsistent with the present H. C. of L.

While the Dutch are considering the damming of the Zuyder Zee, the Germans are damming the British fleet at Zeebrugge.

It is said the making of a two-cent coin in the United States has been postponed because some officials think the one-cent daily will again become a real, live street corner article. The one-cent daily paper is as dead as Caesar's ghost and few there be who are going to rush in to rattle the old bones.

Hon. C. R. Mitchell, provincial treasurer, has gone East in connection with the sale of Alberta treasury bonds and to attend a Victory Loan conference with the Minister of Finance.

Enquiries in the Old Land has brought out the information that large sums have been paid to country papers for the publication of prepared articles attacking Lloyd George. This is about the meanest practice in journalism. The paper that throws its columns open, for a price, in times like these, so that disgruntled and scheming politicians may smear their mud, has a mighty poor conception of its mission or responsibility.

Cost of Loan

The press of Canada has not forgotten the deluge of charges that it met during the last Federal elections to the effect that it had been bought up by Government advertising matter running in its columns. The Grain Growers' Guide of Winnipeg, recalls the incident, and remarks:

"The published figures revealing the actual cost of floating the Victory Loan show that out of the total expenditures amounting to \$5,000,000, only \$207,000 went as commission to brokers, \$1,140,000 to canvassers, and \$3,653,000 to bankers."

Vulcan Co-Operative Co. is purely a Co-Operative organization, owned, operated and controlled by farmers of the Vulcan district. Are you a shareholder and supporter? If not, you should be.

HAIL :Insurance:

Last year many farmers regretted that they had not insured earlier. They kept putting it off to see what the crops would be like.

Hail came in the meantime and the loss was considerable

Do not make the same mistake as last year

Insure Early. Insure Now in the "EMPLOYERS' LIABILITY", and the "BRITISH CROWN HAIL UNDERWRITERS"

What Will You Do For Help?

FARM help is scarce, but this condition can be relieved to a marked degree by using machines that accomplish more work in a given time with less man power.

Why should the farmer cling to horses—a slow, expensive means of power—when every other business is adopting the truck and thereby reducing the cost of hauling, speeding up deliveries, and saving for human needs the food that the horses would otherwise consume?

The motor driven truck can work constantly at maximum load under the burning summer sun, or in the coldest weather. Unlike the horse it needs no rests while working, it eats only while in actual use, and when the day's work is done it requires very little attention, and leaves you free for other "Chores" about the place. Then, it can be housed in one-quarter the space of the horses, wagon and harness it replaces.

It is a mistaken idea that a truck is useful only for driving upon paved roads. The Ford can be driven all over the farm, and used for hauling grain, potatoes, fruit, roots, fertilizer, wood, stock, milk or any other product. The speed it travels, the time it saves, and its low upkeep cost appeal very strongly to all users of the Ford Truck. If you need help, order your Ford One Ton Truck today.

All prices subject to war tax charges, except trucks and chassis

HORRIBLE DEATH OF SHIPS CREW

Terrible struggle With Death
40 Fathoms Under sea
After Sub was Sunk

Harrowing details of the destruction of one of the largest and more recently constructed German submarines are given in a dispatch from a neutral correspondent. This submarine was one of the last to leave Zeebrugge before the entrance to the harbor was blocked on May 24.

The submarine struck a mine and out of the crew of forty, only two survived on reaching the surface after a terrible struggle with death for an hour and a half, twenty fathoms below the surface. Some of the crew committed suicide, having lost all hope of leaving the boat alive.

The only chance of escaping was to force open the conning tower and the forward hatches and trust to the compression of air in one part of the vessel to force each man like a torpedo to the surface. The air pressure had become so high that the great majority of Germans could not keep their mouths closed.

The compressed air shot them to the surface and hardly had they reached the sea level when the air pressure burst their lungs and about twenty of them sank like stones. The survivors described the cries of the men when the end came as the most horrible noise they ever had heard.

The attention of British trawlers was attracted and hastened to the rescue. The condition of the survivors showed that their experiences in the submarine had been of a dreadful character.

DRIED EGGS IN ENGLAND

The high cost of eggs in England has led to a much greater use of dried eggs and eggs in solution. One large firm selling dried eggs has undertaken an extensive advertising campaign to push these eggs upon the attention of retailers, who in their turn are being enabled by other advertising matter to attract their customers to the goods.

The dried eggs are entirely soluble and take up the water like a lump of sugar and thus give the perfect creamy liquid of a beaten shell egg ready for instant use on mixing. Dried eggs are no longer to be regarded as war food; they have come to stay. The firm predicts that in the near future the properly-dried eggs will have become one of the very largest used and most important of our foods.

Following the failure of the German drives and the collapse of the Austrian attempt against Italy, the enthusiasm of the people of Germany has given way to depression. The economic situation in Germany is acute and the constant arrival of American soldiers on the Western front is shaking their belief of German victory.

Canada leads all nations in the production of food per capita of population.

HUN HELD BY A HAIR

It is reported that a German soldier coming into possession of a hair that had fallen from the head of Von Moltke, the military genius of the war of 1870, gave it to a celebrated French jeweller, charging him to use it in fashioning a keep-sake that might be handed down from generation to generation. The French jeweller set to work, and in the course of time the German opened a box to inspect for the first time the finished creation. He found an Imperial eagle, wrought exquisitely in gold, and suspended from the beak, by the hair of the Von Moltke, the arms of Alsace and Lorraine. And the superscription was "You hold them, but by a hair."

Today the Germans, intent upon world dominion, are held in check, as it were, only by a hair. Every additional ounce of energy that is thrown into the conflict upon one side will have a determining effect upon the issue. No member of the Alliance, no matter how sorely tried, can afford to rest on his oars at this juncture. It is the pressing duty of each to exert its full strength to the end that the war may be brought to a speedy and successful conclusion. Canada proposes to do her part, and by the intelligent mobilization of her available resources, to bring her maximum power to bear upon the issue.

But before she can carry out this purpose she must first ascertain what her human resources are, she must provide herself with a complete inventory of her effectives, female as well as male. This inventory will be taken on Saturday, June 22nd, when all residents of Canada, of sixteen years of age and upwards will be required to register their names and furnish the information necessary to their proper classification in Canada's National Directory of War Workers.

THAT UNQUENCHABLE SPIRIT

Lt. Col. J. J. Fraser, D.S.O., Walkerton, has the greatest admiration for the unquenchable spirit of Thomas Atkins.

"You cannot fease him" he says. He is as quick with his wit as he is with his bayonet. Sarcasm is his long suit. He makes a burlesque of his own wounds as well as of the German artillery which caused them."

A soldier was brought into the dressing station suffering from a compound fracture of the leg. Asked how it happened, he said, "Well, Sir, it was this way: I was leaning up against a German barrage enjoying a cigarette when the barrage suddenly lifted and I fell into a shell-hole and broke my leg."

It will be illegal to operate a public eating place without a license from the Canada Food Board. The time has been extended until July 1st, because of the rush of applications which were more than could be dealt with by the Board's office staff.

No person may manufacture ice cream, candy, cake, crackers, biscuits, pastry, confectionery, ice cream cones or chewing gum without first obtaining a license from the Canada Food Board, on and after July 1st.

CONCISELY OUTLINES AIMS OF UNITED FARMERS ASSOCIATION

Booklet Issued Preparatory to Launching of Big Membership Campaign

In the interests of the membership drive of the U.F.A., a concise little leaflet has been issued which explains what the U.F.A. is, what it has done and what it aims to do.

The U.F.A. is, according to the leaflet, a voluntary democratic organization of Alberta farmers for the advancement of all the interests of all the farmer population of the province and standing for the sympathetic and practical co-operation with all who believe in economic justice, in the worth of democracy, and in the possibility of human betterment.

The association basis its hopes for success upon the four general methods—organization, education, co-operation, and legislation, setting itself to attain through these a better life for the farm people.

Among many other things mentioned as having been accomplished by the U.F.A., the leaflet says that that organization has helped to create a community consciousness and to establish the spirit of true democracy in many districts, it has been to thousands a means of education along economic and social lines, it has stimulated co-operative dealing, thus saving dollars, and it has been a main factor in securing the present status in regard to direct legislations, woman suffrage and rural credits.

The aims of the U.F.A. includes the desire to help make the next generation of rural Canadians fit to hold their own with all others socially, commercially and politically, and to develop a public spirit and public conscience in regard to municipal, provincial and national interests.

HEAD LICE IN CHICKENS

The chicks should be gone over for lice—the head lice are the worst. If the brooder and the surroundings are kept clean as possible there should not be much fear of head lice. Should they appear, however, an application of ointment of some kind should be used at once. If this is not available use vaseline, olive oil or sulphur and lard. Every head will have to be gone over and the treatment will have to be repeated in a week. It is a troublesome task to go over several hundred young chicks, but it must be done, each head by itself. Rub the paste well into the scalp and around the ears. Some use coal oil, but it is too severe and has been known to kill the chicks about as quickly as lice. Head lice in chicks are sometimes hard to locate. The chicks may be listless, getting thin, wings down, feathers ruffled, and dying off one by one. Upon examining the head one can see nothing running around and that appears is what looks like young feathers sprouting out of the head. To make sure that they are there, take some of the ointment and apply thoroughly to the head. Put the chick in a box and examine in a few minutes time. The young feathers will be gone and large bodied lice will be running for their lives. The feathers were the abdomens of the lice, the head and rest of the bodies being in to the head of the chick eating away at the tissue. It takes only a few days to have a whole cock cleaned out. Absolute cleanliness is the best preventative.

WILL GO EASY ON THE FARMERS TILL AFTER HARVEST

19 Year old Class Will Not be Called Up Until The Autumn

It is stated that an official announcement soon will be issued by the government dealing with the calling out of men engaged in agricultural pursuits. It is understood that it will contain the assurance that while the need for reinforcements must be met every care will be taken to have the enforcement of the Military Service Act press as lightly upon the farmers as possible, at least until after the completion of harvesting.

As already announced young men of the 19-year class, who were asked to register on June 1, will not be called out before autumn. The position of the farmers recently has been engaging the attention of the cabinet council.

SUPPLEMENTING THE COW PASTURE

With coarse grains at abnormally high prices the question will arise in the minds of many dairy farmers as to whether or not it will pay to feed concentrated feeds of any kind to dairy cows while on pasture.

Given an abundance of good pasture, experiments at Macdonald College have proven that it will not pay to feed the average dairy cow grain. With limited pasture and a summer of extremely unfavourable weather, it will pay to feed milk cows something besides the pasture. If soiling crop or silage is available, concentrated feed is less important, but for the best returns from every standpoint a combination of the two is necessary.

The prevailing practice in many districts is to depend upon pasture entirely. For the average cow having as she does small milking capacity, and usually quite a territory of rough pasture, it is questionable if grain feeding will pay under present conditions. On the other hand when farming is more intensified, with less acreage in pasture and better cows, it is absolutely necessary and will pay to supplement the grass when it gets short with at least a limited amount of grain feed.

The time to commence feeding is just when the cows begin or even a little before they begin to shrink because of short pasture. If feed is delayed until the cows have materially decreased in milk and flesh the results from feeding will at first be disappointing and will continue so until the cows regain normal condition. This fact explains many of the apparently poor results from extra feedings.

The amount of feed necessary must depend on the cow's work, her condition, and what else she is receiving. In the average case three to five pounds of meal per day will suffice. At the present time it is often a case of taking what meal may be available and mixtures are almost out of the question. Oil cake meal seems about as good value as anything and less of it will do. It is a good milk producer, and it is a splendid feed for sustaining and increasing body weight. If other feeds can be combined with it so much the better, but one pound of it per day even alone on short grass will go a long way in tiding the cows over a bad time.

In the United States the fourth Liberty Loan this fall will probably be for at least \$6,000,000,000 and is likely to be floated in October.

HORSE ROUTE CARDS

SOME FAMILY THIS

Say, that guy's got lots of friends to see him off," somebody remarked, as a small procession followed an up-standing young chap into the Union station, where several Chicago draft boards were entraining recruits for Camp Grant.

"Friends, nothing," remarked one who knew. "That is his family."

Investigation showed that the man was Thomas Murphy, one of the 21 children of Mr. and Mrs. Timothy J. Murphy, of Chicago—and father, mother and all the available brothers and sisters were at the station to bid Thomas good-bye. In addition to the brothers and sisters, there were a dozen more nephews and nieces, grandchildren of the hale and hearty Timothy and his smiling wife.

"Yes, it's a good American family," said one of the children. "Frank is he third to get into the service of the United States. There are ten sisters and eleven brothers, all living and healthy."

TRADING IN WHEAT

No official information is as yet available here by way of confirmation of the report that a relaxation of rules restricting trading in wheat is likely because of the promise of a larger wheat crop. In view of the movement on the other side of the border in favor of at least a partial removal of the restrictions the matter is one that is likely to engage the attention of the government and the Canada food board if the petitions

ESTABLISHED 1872

BANK OF HAMILTON

SECOND only to the requirements of the Government is the encouragement of increased production on farms and in factories. At no other time in our national life was the increment of wealth so essential to our welfare as it is now. The Bank of Hamilton offers facilities for the justifiable expansion of business.

SYNOPSIS OF CANADIAN NORTHWEST LAND REGULATIONS

THE sole head of a family, or any male over 18 years old, who was at the commencement of the present war, and has since continued to be a British subject or a subject of an allied or neutral country, may homestead a quarter section of available Dominion Land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at Dominion Lands Agency or Sub-Agency for District. Entry by proxy may be made on certain conditions. Duties—Six months residence upon and cultivation of land in each of three years.

In certain districts a homesteader may secure an adjoining quarter section as pre-emption. Price \$3.00 per acre. Duties—Resides six months in each of three years after earning homestead patent and cultivate 50 acres extra. May obtain pre-emption patent as soon as homestead patent on certain conditions.

A settler after obtaining homestead patent, if he cannot secure a pre-emption, may take a purchased homestead in certain districts. Price \$3.00 per acre. Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$300.00.

Holders of entries may count time of employment as farm labourer in Canada during 1918 as residence duties under certain conditions.

When Dominion Lands are advertised or posted for entry, returned soldiers who have served overseas and have been honorable discharged, receive one day priority in applying for entry at local Agents Office (but not Sub-Agency.) Discharge papers must be presented to Agent.

W. W. CORY, C. M. G. Deputy of the Minister of the Interior N.B.—Unauthorized publication of this advertisement will not be paid for—64388.

COAL SUPPLIES AND IMPORTS OF CANADA

Development since 1874. Need for Decreasing Imports.

The coal supplies of Canada are second only to those of the United States in quantity, and compare favourably with those of other great coal-mining countries in quality, quantity and accessibility for mining purposes. The known area in Canada mated by Dr. D. B. Dowling at 111,168 square miles, containing over 1,300,000 million tons of coal. For convenience in classifying, the coal-fields may be divided into four main divisions, as follows:

(1) The Eastern Division, comprising the bituminous coal-fields of Nova Scotia and New Brunswick.

(2) The Central or Interior Division, comprising the lignites of Manitoba and Saskatchewan, and the lignites, sub-bituminous, bituminous and semi-anthracite coal fields of Alberta, as well as the bituminous coal fields of the Rocky mountains in south-eastern British Columbia.

(3) The Pacific Coast Division, comprising the bituminous fields of Vancouver Island, the bituminous and semi-anthracite fuels of Queen Charlotte Island and the interior of British Columbia, and the lignites of Youkon.

(4) The Northern Division, comprising the lignites and low-grade bituminous coal of the Arctic-Mackenzie basin.

The coal-mining industry of Canada has developed at a very rapid rate. In 1874, the earliest year for which there is a reliable record, the production was 1,063,742 tons. In 1916 it amounted to about 14,500,000 tons. But in spite of this striking development, imports have increased faster than production. In 1916, they exceeded 17,000,000 tons, or over 53 per cent of the total consumption for that year.

When it is remembered that Central Canada is dependent on the United States for supplies of coal, the desirability of changing these conditions becomes apparent, both from a mining and a national standpoint.

ENTHUSIASM NOT OF THE DOLLAR KIND

Ontario farmers at the Toronto convention enthused to a high pitch when it was declared they should have a daily paper all their own. Later on, the delegates were asked to subscribe stock for the purpose of starting such a paper. There was no enthusiasm then. As long as somebody else would put up the money they were enthusiastic, but when they were asked to back up what they yelled for, silence reigned. It is easier to talk about establishing a newspaper than to finance it.

Nearly every man or woman at some time or other, disagrees with a newspaper so strongly that they want to start one of their own right away. In some cases papers have been started to exploit the views of an individual, but these attempts have been rarely successful. Sir Joseph Flavelle sunk a half million dollars in The Toronto News in an attempt to create an uplift newspaper. He was enthusiastic and backed up his enthusiasm with cash. Likely he is sorry he didn't choke off his enthusiasm as did the Ontario farmers.

NO GERMAN MUSIC

William Banks, Sr., chief theatrical censor, Toronto, has warned the Canadian National Exhibition authorities against allowing the playing of any German music at the exhibition exhibition this year. The censor says that a number of clergymen have banned Mendelssohn's wedding march in their churches.

Washington plans a centralized labor agency through which to recruit the 4,500,000 men war industries expect to need this year.

Fifty Germans were caught in German Clubs in New York celebrating over the success of the Hun submarine off the New Jersey coast. We are not told as to whether they were lynched or not, but we hope they were.

Vulcan certainly has the luck of it in the matter of fires. The little outbreak on Friday would have cleaned up the whole town had it happened that the wind had been blowing in an opposite direction. As it was the fire burned itself out without further damage, despite the high wind. Some day we shall perhaps find the wind less favorably inclined and then there will be something doing. Meanwhile we can congratulate ourselves and thank whatever gods there be that we are not reduced to dust and ashes.

EVERY-THING HANDY

And within your reach. Our Kitchen Cabinets will save you hundreds of steps, which you are now taking about in the performance of your daily routine. Standing before the cabinet which is well stocked, all the work is done without moving.

"Masters of the Road"

DUNLOP TIRES

HERE IS THE DAY YOU REGISTER

ON June 22nd, Saturday, every man and woman, resident in Canada, who is 16 years and over, must attend at one of the

places provided for registration, between the hours of 7 a.m. and 10 p.m., and there truthfully answer all the questions set forth upon the registration card.

Upon signing the card, vouching for the accuracy of the answers, the man or woman will receive a Registration Certificate, as shown below, which must be carried upon the person thereafter.

Why the Certificate is so Important

For failure to register a maximum fine of \$100 and one month's imprisonment is provided, also an added penalty of \$10 for each day the person remains unregistered after June 22nd.

Persons remaining unregistered cannot lawfully be employed, and cannot draw wages for work done after June 22nd. Employers who keep unregistered persons in their employ will be liable for fines equal in amount to those recoverable from the unregistered employees.

Unregistered persons cannot lawfully purchase transportation tickets, and may find themselves

barred from travelling on railroads, steamboats, etc. Similarly they may be denied board and lodging at any hotel, restaurant, public house or boarding house.

In a word—All persons remaining unregistered, and all persons having dealings with unregistered persons, knowing them to be such, incur heavy penalties under the law.

REGISTRATION IS LAW Don't Fail to Register.

This Certificate is YOUR Protection. Get it and Carry it

Dept. of Agriculture, Edmonton

students it compared very favorably with the older colleges of eastern Canada. While the demands for man power during the war have greatly reduced the number of students in attendance, the college, now closely co-operating with the Alberta Methodist college, continues to fill an important place in the educational work of the church in Alberta.

The congregation at Vulcan have been asked for \$100 in aid of the work as its apportionment for the year. The pastor, Mr. Schrag and Mr. Rice are both confident that the response will not be less than this amount.

Miss Ethel Peterman, who has been attending school in Monmouth, Ill., is visiting her brother, Mr. Percy Peterman. She arrived here on Thursday.

Mr. W. E. Butchart was a business visitor to Calgary last night.

Don't forget the big dance in the I. O. O. F. hall on July 1st. Klebe's seven piece orchestra.

Some of the gardens in town are being harried by the cut worms.

The treasurer of the local branch of the Red Cross Society wishes to acknowledge a donation of \$13.75 from Mr. J. S. Jamieson.

Born—To Mr. and Mrs. N. Sullivan, Vulcan, on Thursday, June 13th, a son.

Born—To Mr. and Mrs. R. B. Jamieson, Vulcan, on Saturday, June 15th, a daughter.

Our editorial draws the attention of the council to the need for speed-limit signs at the entrances to the village. Since it was written we notice that boards are all ready to be erected. Let us hope it does some good.

Mrs. Wallace Hall, experienced a bad fall recently. She was putting up screens when she slipped from the ladder and fell about ten or twelve feet, injuring her knee.

Mrs. T. B. Lebow left on Thursday last for a month's visit to Banff and Wainwright.

Mr. E. C. Henry was a visitor to Calgary last week.

Mr. W. F. Jennejohn was a visitor to Calgary last week.

Dr. Mecklenburg, the eye specialist will be in Vulcan on Friday of this week, June 21st.

Mr. and Mrs. J. E. Davis left on Tuesday evening for Hearne, Sask., where Mr. Davis has farming interests.

Don't forget to attend the dance in the I.O.O.F. hall on July 1st. A good time assured.

SYNOPSIS OF CANADIAN
NORTHWEST LAND
REGULATIONS

THE sole head of a family, or any male over 18 years old, who was at the commencement of the present war, and has since continued to be a British subject or a subject of an allied or neutral country, may homestead a quarter section of available Dominion Land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at Dominion Lands Agency or Sub-Agency for District. Entry by proxy may be made on certain conditions. Duties—Six months residence upon and cultivation of land in each of three years.

In certain districts a homesteader may secure an adjoining quarter section as pre-emption. Price \$3.00 per acre. Duties—Resides six months in each of three years after earning homestead patent and cultivate 50 acres extra. May obtain pre-emption patent as soon as homestead patent on certain conditions.

A settler after obtaining homestead patent, if he cannot secure a pre-emption, may take a purchased homestead in certain districts. Price \$3.00 per acre. Must reside six months in each of three years, cultivate 50 acres and erect a house worth \$300.00.

Holders of entries may count time of employment as farm labourer in Canada during 1918 as residence duties under certain conditions.

When Dominion Lands are advertised or posted for entry, returned soldiers who have served overseas and have been honorably discharged, receive one day priority in applying for entry at local Agency Office (but not Sub-Agency.) Discharge papers must be presented to Agent.
